Abstract

Thesis title: Educational Implications in Al-Tahrim chapter

Researcher: Ahlam Abdullah Qaed Al-Otaibi

Study Objectives: This study aimed to develop educational implications contained in Al-Tahrim chapter ; goals , purposes , values, methods, and educational guidance.

Study Methodology: researcher ,in the study, followed the descriptive method (documentary) and the deductive method.

The study is in five chapters:

Chapter I: the problem of the study.

Chapter II: theoretical framework and previous studies.

Chapter III: The goals , objectives, values and educational methods contained in or derived in Al-Tahrim chapter , has three sections: the first entitled :the goals , education purposes derived from Al-Tahrim chapter, and the second entitled educational values contained in AL-Tahrim chapter, and the third entitled the educational methods contained in AL –Tahrim chapter.

Chapter IV: educational guidance derived from Al-Tahrim chapter divided into four sections: the first entitled: educatioal guidance related to self education, the second entitled : educational guidance related to couples , and the third entitled educational Guidance on children's upbringing, and the fourth, entitled: educational Guidance related to Muslims in general.

Chapter V: Abstract, conclusions and recommendations.

Key Results:

1. The study found that Al-Tahrim chapter have included a large number of educational goals and objectives.

2. The study showed that Al-Tahrim chapter has included a number of educational goals in various areas, notably the moral, family and social goals.
3. The study found that Al-Tahrim chapter is filled with educational values.
4. The study showed that educational methods included in Al-Tahrim chapter, they were multiple and varied.
5. Al-Tahrim chapter included vital basis of the task to build the house and the Muslim family.
6. The study indicates that Halal and Haram are God's destiny, therefore, He admonished his Messenger ,peace be upon him, in Al-Tahrim chapter as he forbidden something for himself ,God has made atone for oath, Muslims must adhere to atone for their faith.

Key Recommendations:

1. Encourage educational research dealing with Quran chapters and topics for their importance to the advancement of the Islamic nation.
2. The need to strengthen the pillars of faith in the hearts of children for the important educational effects.
3. Highlighting the role of the Holy Quran in education, particularly with regard to the various educational methods.
4. Constant endeavor by educators to guide educated and guide to shield them from falling into the Hell.
5. The need to apply the educational implications in AL-Tahrim chapter, to apply what it contained at home and the community.
